The undersigned Charge d'Affaires of the United States has the honor to acknowledge the receipt of His Exc^y the Marquess of Aracaty's note respecting the imprisoned seaman, & has no doubt that justice will be done in the case of that unfortunate man.

The undersigned also received the copies of the Treaties from Mr Liston & is occupied in preparing the sketch proposed: but he cannot fail to remark to His Exc^y how much he is disheartened in this labour, by what he hears from the agents of the claims, that they have not yet been able to settle a single one of the cases with the Commissioners, and it is now a fortnight since the business was commenced. No Treaty that he could sign would be submitted by the President to the Senate, unless these claims are settled. He therefore earnestly requests His Exc^y to give orders, that every delay may be avoided, in bringing these questions so limited in

extent, to a conclusion: and he renews to his Excy the Marquess of Anacaly the assurances of his high consideration and respect.

W. Tudor.
