W. Tudor presents his respectful compliments to His Exc.y the Marquess of Anacaty, & incloses a supplement to the Peruvian Mercury of Dec.r 21. which he received yesterday from Chile. It appears that the advance of the Peruvian army was at Loxa; and that Admiral Guise who commanded the Peruvian squadron after a very gallant but perhaps rash enterprize of sailing up the river Guayaquil & destroying several batteries & vessels, was killed with two or three of his officers.
