Monte Video 2. Feb.y 1828

In your letter to me of Jan.y 3.d you request my opinion about B.s Ayres & when the War is likely to end, to which I answer, with much confidence, that it cannot last more than 5, or 6 months longer, for the best of all reasons, that the resources of B.s Ayres will be drained to the very drags before that period. The last loan is all spent & the Minister has demanded from the Junta a loan to enable him to raise 10,300,000 dollars for the service of the current year. Altho it is well known they have no credit left to raise 1/5.th part of this sum.

There are some fresh attempts making in B.s Ayres to patch up a peace recommended by Lord Ponsonby and the rest of his intriguing radical party. They have received the sanction of the B.s Ayrean Government, as the last hope to keep them from destruction, & at the same time to preserve the Banda Oriental from the Brasilian. It would be impolitic in the Brasilians to give in, when a few months must reduce their opponents, & enable the Emperor to fix a solid & material Boundary to his Dominions.

A Brother of D. Thomas Garcia, our President, goes to Rio by the Packet charged with information wich ought to have due weight with the Emperor's Council.
