Entd upon the Bks of this Co. Jan 1849

Sabina

British Consulate Baltic

Pursuant to a warrant of survey unto us directed by Edward Porter Esquire Her Britannic Majesty's Consul for this City and Province of Baltic dated the 21st day of May 1849 we the undersigned repaired on board the British Brig "Broxdale" of Sunderland of 294 Tons burthen or thereabouts and then and there particularly viewed examined and surveyed the vessel and cargo so far as practicable and we find after due inspection that her starboard bulwarks and stanchions are carried away that at anchor she is now making upwards of nine inches water per hour and at different places the water is audibly running in - that we consider it absolutely necessary for the ship to be lightened - & without delay in order to admit of a fuller survey being held.

Thus we have done and do now report at Baltic under our hands upon oath this twenty

second

second day of may One thousand
Eight hundred and forty nine
(signed) H. Hale
Master of ship South Star
(do) Llewellyn Edrington
Master of Barque Sultana
Sworn before me at the
British Consulate
(signed) Edward Porter
Consul

I Edward Porter Esquire Her
Britannic Majesty's Consul
for this City and Province of
Bahia. Do hereby Certify
that the foregoing is a true
and faithful transcript from
the Register Book vol 3 fo 361.
of the original Report of Survey
duly made and signed &c
in my presence by Henry Hale
Master of the ship Northstar
of London and Llewellyn Edrington
Master of the Barque Sultana
of Glasgow. In testimony

whereof I have granted
this under my hand
and seal of Office at
Bahia this 15th day
of march 1859.
Edward Porter
Consul
