In the Exchequer of Pleas

Fonseca
v
Foote & anr } draft Replns

I have prepared the replications of the defts to be delivered as replications and not in the form of an issue, order the defts to repain and put them under terms to repain issuably, as it may be questionable whether the replication de injuria which is most advantageous for the pltff in valentam - is in point of form admissible in answer to some of the pleas -
